Buffalo River Float Trip Great Success

The 2008 Wichita Ski club float trip down the Buffalo River was a great success. Our fearless co-captain Paul Warren went down early to reserve campsites and haul the firewood and grill. Gary Lowe was kind enough to take his trailer and half a dozen coolers, more firewood and gear from many others who did not have the room... THANKS GARY!!!! Another BIG bunch of kudos to Steve Ashmore and Gary for loaning tents to several campers, they EVEN had them all set up when we got there. You guys ROCK!! Probably the biggest hit was Gary's portable shower. Not only did it provide the much needed cleansing but also some entertainment for the jokesters sitting around waiting for the folks to step in and then announce that you could see through it... (you really couldn't). The weather cooperated on Saturday, for the nine mile float. The scenery was nothing less than amazing. A few took on the challenge of going it alone in a kayak, the rest headed out in canoes.

Several water fights and much capsizing took place,

some caught on film. A cliff provided a good place to jump off into the water for some of our more adventurous folks.

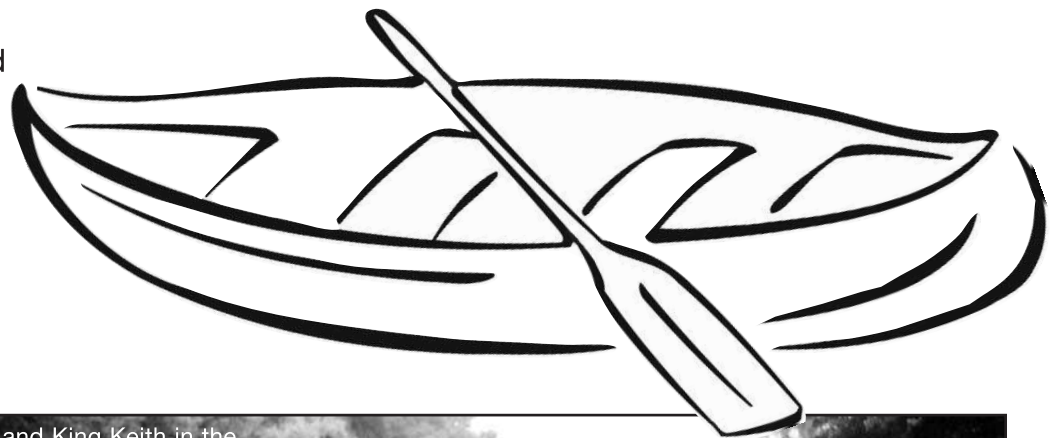

Half way down the river, the group stopped for lunch and most headed out on foot, following a backwoods trail to a stunning waterfall, hidden back in the trees. Everyone made it back to shore safely and got things together for a feast. Paul and Keith did the cooking and Ashmore made his famous bratburgers. We all got plenty to eat and kicked back a few brewskies too. A midnight serenade for

the Birthday Boy Rob Bailey was also later heard throughout the camp.

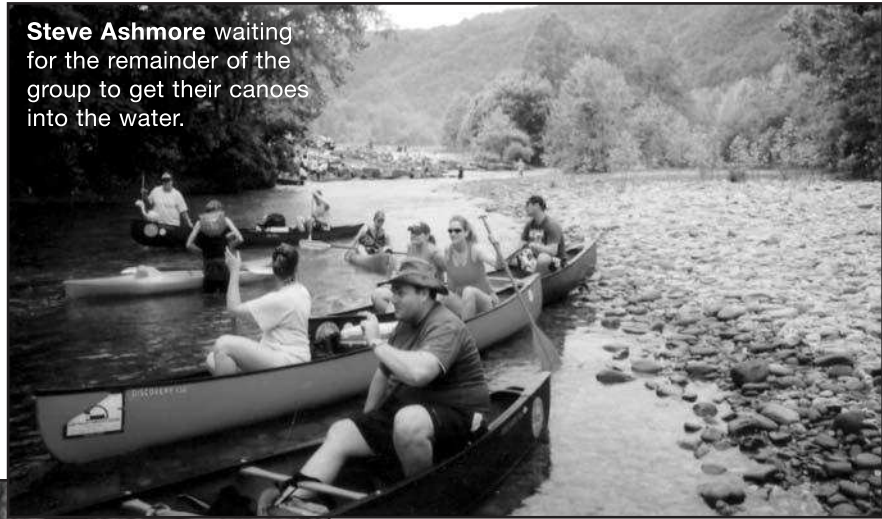

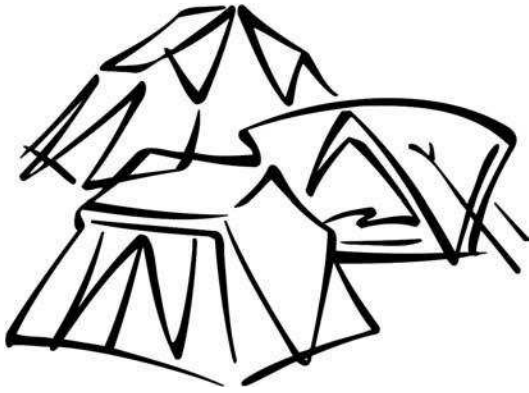

Sunday morning brought some thunder and rain, and most packed up quickly to head back.

Many new faces went with us this year, including some of our "newest" members and we had the pleasure of 3 charming gents and 1 gal from Germany and 2 gents from France. A total of 38 folks made it a good time, Thanks to all who went and we will see you all next year!!!
